

Notes – CEDEN User Group Meeting

1. An updated version of the CEDEN Vocabulary Request Template is now available on the CEDEN website.
2. The group furthered the discussion on passive sampler business rules. While there were few additional comments on the draft document, some participants requested to see the rules implemented using example data entered into the Chemistry Data Template before the rules are finalized. Jarma Bennett agreed to work on providing that example.
3. The next meeting is scheduled for April 21.
